Ahmad Assi

Computer Science Engineering Student

Ahmad.assi7333@gmail.com +36 706189271 Ahmad Assi Ahmadassi04

Portfolio Budapest, Hungary

EDUCATION

Budapest University of Technology and Economics Sep 2023 – Jan 2027
B.Sc. Computer Science Engineering Budapest, Hungary

TECHNICAL SKILLS

- Programming: Python, Java, C, C++, SQL
- Web Development: HTML, CSS, JavaScript, React, Bootstrap, Vite, Webflow
- Testing: Pytest, JUnit 5, Unit Testing
- Tools & Platforms: Git, GitHub, VS Code, Claude Code CLI, Google APIs
- Libraries & Frameworks: Tkinter, pandas, Pillow, NumPy, Matplotlib, Java Swing
- Other: Technical documentation, project coordination, teamwork

WORK EXPERIENCE

GLOBUS SOFTWARE DEVELOPMENT COMPANY SRL Jul 2026 – Present
Software Development Intern Budapest, Hungary (Remote)

- Participating in AI-assisted Python development using Claude Code CLI, working with PRDs and technical specifications, task decomposition, TDD, debugging, refactoring, Git-based workflows, and technical documentation.

RELEVANT EXPERIENCE

Google Developer Group on Campus BME Jan 2026 – Present
Technical Team Core Member Budapest, Hungary

- Contribute to technical projects for community events and coordinate tasks, timelines, and team progress as Project Lead for the Certificate Generator.

BME Qiskit Fall Fest Oct 2025

Technical Support Budapest, Hungary

- Provided technical support during a two-day IBM Quantum lecture and hackathon, assisting with participant onboarding, troubleshooting, and presenter support.

TEDxBME Feb 2025 – Jun 2025

IT Team Member Budapest, Hungary

- Maintained and updated the TEDxBME website in Webflow and supported event-related digital operations with other teams.

PROJECTS

GDG Certificate Generator

Community Technical Project | Python, Tkinter, pandas, Pillow, Google APIs, Pytest

- Led development of a Python/Tkinter certificate automation tool for GDG on Campus BME, generating personalized certificates from CSV data with preview and PDF/JPG export.

Bloch Sphere Simulator

Group Coursework Project | Quantum Computing | Python

- Built a Python Bloch sphere simulator in a three-person team, adding GUI and CLI features for applying quantum gates and visualizing qubit state changes using NumPy and Matplotlib.

Table Reservation Management System

University Coursework Project | Programming 3 | Java

- Built a Java desktop application for managing table reservations, including creation, updates, cancellations, availability checks, filtering, data persistence, and JUnit 5 testing.

Personal Portfolio Website

Personal Project | React, Vite, JavaScript, CSS

- Built and deployed a responsive portfolio website using React and Vite to present projects, experience, skills, and contact information.

Pipes in the Desert

Group Coursework Project | Software Project Laboratory | Java, Java Swing

- Developed a Java Swing strategy game in a team, implementing gameplay mechanics including movement, repairs, sabotage, water flow, rounds, and score tracking.
