Ahmad Assi

Computer Engineering Student | Software Developer

Ahmad.assi7333@gmail.com +36 706189271 Ahmad Assi Ahmadassi04 Portfolio

Budapest, Hungary

EDUCATION

Budapest University of Technology and Economics Sep 2023 – Jan 2027
B.Sc. Computer Engineering Budapest, Hungary

TECHNICAL SKILLS

- Programming: Python, Java, Dart, C, C++, SQL, JavaScript
- Backend & Databases: Django, REST APIs, PostgreSQL
- Mobile & Web: Flutter, React, HTML, CSS, Bootstrap, Vite, Webflow
- Testing: Pytest, JUnit 5, Test-Driven Development (TDD), Unit & Integration Testing
- Tools & Platforms: Git, GitHub, GitHub Actions, VS Code, Claude Code CLI, Google APIs
- Libraries & Frameworks: pandas, NumPy, Matplotlib, Pillow, Tkinter, Java Swing
- Other: Technical documentation, code review, project coordination

WORK EXPERIENCE

GLOBUS SOFTWARE DEVELOPMENT COMPANY SRL Jul 2026 – Sep 2026
Software Development Intern Budapest, Hungary (Remote)

- Contributed to my thesis project during an AI-assisted software development internship, developing backend and mobile functionality using Python, Django, PostgreSQL, REST APIs, Flutter, and Dart.
- Applied test-driven development, automated testing, debugging, code review, technical documentation, and Git/GitHub workflows using feature branches and pull requests.
- Used Claude Code and other AI coding tools within a structured development process based on planning, verification, and independent review.

RELEVANT EXPERIENCE

Google Developer Group on Campus BME Aug 2026 – Present
Technical Team Head Budapest, Hungary

- Lead the Technical Team and coordinate the planning and development of technical projects supporting GDGoC BME activities and events.
- Organize development work, define project priorities, coordinate collaboration between team members, and contribute hands-on to internal technical projects.

Google Developer Group on Campus BME Jan 2026 – Jul 2026
Technical Team Core Member Budapest, Hungary

- Contributed to technical projects for community events and served as Project Lead for the Certificate Generator project, coordinating tasks, timelines, and team progress.

BME Qiskit Fall Fest Oct 2025
Technical Support Budapest, Hungary

- Provided technical support during a two-day IBM Quantum lecture and hackathon, assisting with participant onboarding, troubleshooting, and presenter support.

TEDxBME Feb 2025 – Jun 2025
IT Team Member Budapest, Hungary

- Maintained and updated the TEDxBME website in Webflow and supported event-related digital operations with other teams.

PROJECTS

GDG Certificate Generator
Community Technical Project | Python, Tkinter, pandas, Pillow, Google APIs, Pytest

- Led development of a Python/Tkinter certificate automation tool for GDG on Campus BME, generating personalized certificates from CSV data with preview and PDF/JPG export.

Personal Portfolio Website
Personal Project | React, Vite, JavaScript, CSS

- Built and deployed a responsive portfolio website using React and Vite to present projects, experience, skills, and contact information.

Table Reservation Management System
University Coursework Project | Programming 3 | Java

- Built a Java desktop application for managing table reservations, including creation, updates, cancellations, availability checks, filtering, data persistence, and JUnit 5 testing.

Bloch Sphere Simulator
Group Coursework Project | Quantum Computing | Python

- Built a Python Bloch sphere simulator in a three-person team, adding GUI and CLI features for applying quantum gates and visualizing qubit state changes using NumPy and Matplotlib.
